

Auto Mechanic

(555) 010-0000 · you@example.com · City, ST · linkedin.com/in/your-name

SUMMARY

ASE Master certified automotive technician with eight years in dealership and independent shops, strong in electrical diagnostics, brake and suspension work, and engine repair, running above 110% flat-rate efficiency with a comeback rate under 2%.

EXPERIENCE

Master Automotive Technician, Metro Auto Service Center 2020 – Present
City, ST

- Diagnosed and repaired 12 to 18 vehicles per day across engine, electrical, and drivability concerns at 110%-plus flat-rate efficiency.
- Pinpointed intermittent electrical faults with a scan tool and multimeter, holding a customer comeback rate under 2%.
- Performed brake jobs, suspension, and alignment work, road-testing each repair before release.
- Replaced timing chains, water pumps, and head gaskets following factory torque sequences and specs.
- Read freeze-frame and live data to interpret check-engine codes rather than parts-swapping by guess.
- Completed state safety and emissions inspections under a current inspection license with zero audit issues.
- Mentored two apprentice technicians on diagnostic strategy and proper repair documentation.
- Sold and documented needed maintenance through clear digital inspection notes, raising approved upsells.

Automotive Technician, Riverside Tire & Auto 2016 – 2020
City, ST

- Handled high-volume maintenance, oil services, tires, fluids, and brakes, averaging 15 repair orders per day.
- Mounted, balanced, and rotated tires and reset TPMS sensors on light trucks and passenger cars.
- Diagnosed and replaced starters, alternators, and batteries after testing charging-system output.
- Flushed cooling, brake, and transmission systems following manufacturer service intervals.
- Inspected vehicles and built repair estimates that earned high customer approval rates.
- Kept the bay and tools organized to OSHA standards across an injury-free record.

EDUCATION

Automotive Technology Diploma, NATEF-aligned program covering engine performance, electrical, 2016
brakes, and steering and suspension.

Community Technical College — City, ST

CERTIFICATIONS & LICENSES

ASE Master Automotive Technician (A1–A8) · ASE L1 Advanced Engine Performance · State Vehicle Inspection License · EPA Section 609 (MVAC)

SKILLS

Electrical diagnostics · Engine repair · Brake service · Drivability diagnosis · Suspension and steering · Scan tool use · State inspection · Flat-rate efficiency · Cooling systems · Digital inspections · TPMS service · Preventive maintenance
