

Carpenter

(555) 010-0000 · you@example.com · City, ST · linkedin.com/in/your-name

SUMMARY

Journey-level carpenter with ten years across residential framing and finish work, skilled in plan reading, layout, and trim installation, known for square, plumb framing delivered on schedule and a crew-lead role on multi-unit builds.

EXPERIENCE

Lead Carpenter, Summit Construction Group

2018 – Present

City, ST

- Framed walls, floors, and roofs for 35-plus single-family homes averaging 2,400 square feet, holding walls plumb within 1/8 inch.
- Led a four-person crew through layout, framing, and dry-in, completing the average house frame in under two weeks.
- Set roof trusses and cut conventional rafters to a 6/12 and 8/12 pitch using rafter tables and a speed square.
- Installed interior trim, doors, and cabinets on finish jobs with mitered joints tight enough to skip caulk.
- Read architectural and structural plans to lay out wall lines, openings, and stair stringers before cutting.
- Built stair stringers and handrails to code rise-and-run, passing rough framing inspection on first walk.
- Coordinated material deliveries and the cut list to keep waste under 5% on framing lumber.
- Trained two apprentices on layout, nailing patterns, and fall-protection use across a clean safety record.

Carpenter, Hometown Builders

2014 – 2018

City, ST

- Framed and sheathed exterior walls on production townhomes, meeting a daily linear-footage target with the crew.
- Hung interior and exterior doors, shimming and setting reveals consistent within 1/8 inch.
- Built and stripped concrete forms for footings and foundation walls, bracing for square and plumb pours.
- Installed subfloor and decking, gluing and screwing panels to eliminate squeaks on callback walks.
- Operated table, miter, and circular saws plus a framing nailer safely throughout each build.
- Helped lay out and frame stairs, decks, and dormers from the lead carpenter's plan notes.

EDUCATION

Carpentry Apprenticeship (4-Year), Completed on-the-job hours plus classroom training in blueprint reading, framing, and finish carpentry.

Regional Trades Institute — City, ST

CERTIFICATIONS & LICENSES
