

HVAC Technician

(555) 010-0000 · you@example.com · City, ST · linkedin.com/in/your-name

SUMMARY

EPA 608 Universal certified HVAC technician with six years servicing residential and light-commercial systems, skilled in refrigerant charging, electrical diagnostics, and heat-pump repair, with a first-call-complete rate above 90% across heating and cooling seasons.

EXPERIENCE

HVAC Service Technician, Comfort Climate Solutions

2021 – Present

City, ST

- Diagnosed and repaired 10 to 14 residential heating and cooling systems per day with a first-call-complete rate above 90%.
- Charged split systems by superheat and subcooling, recovering and weighing refrigerant per EPA 608 to within manufacturer target.
- Replaced compressors, condenser fan motors, and TXVs, brazing line sets and pulling vacuum to 500 microns before charging.
- Troubleshoot low-voltage control circuits, capacitors, and ignition boards to restore furnaces and heat pumps on the same visit.
- Performed 200-plus seasonal maintenance tune-ups, documenting static pressure, amp draw, and temperature split on each unit.
- Upsold 30 indoor-air-quality and thermostat add-ons by explaining run-time and humidity data to homeowners.
- Maintained refrigerant recovery logs and EPA compliance records with zero violations during shop audits.

HVAC Installer, Northpoint Heating & Air

2018 – 2021

City, ST

- Installed 150-plus residential furnace, air-handler, and condenser systems with leak-free line sets on first nitrogen test.
- Set and connected ductwork, sealing joints and verifying airflow to balance supply and return.
- Wired thermostats and 24-volt control circuits, confirming staging on two-stage and variable-speed equipment.
- Pulled and pressure-tested refrigerant lines, evacuating systems to 500 microns before commissioning.
- Hauled and set rooftop package units with a crew, leveling and curbing each unit to spec.
- Completed startup checklists capturing gas pressure, temperature rise, and combustion readings per install.

EDUCATION

HVAC/R Technology Certificate, Coursework in refrigeration cycle, electrical theory, heat pumps, and EPA 608 preparation.

Community Technical College — City, ST

CERTIFICATIONS & LICENSES

EPA Section 608 Universal · NATE Certification · OSHA 10 · R-410A Safety

SKILLS

Refrigerant charging · Electrical diagnostics · Brazing and evacuation · Heat-pump repair · Furnace service · Preventive maintenance · Airflow balancing · Thermostat wiring · Leak detection · System installation · EPA recordkeeping · Customer communication
