

# New Grad Nurse

(555) 010-0000 · you@example.com · City, ST · linkedin.com/in/your-name

## Summary

---

Newly licensed registered nurse and recent BSN graduate with 700-plus supervised clinical hours across med-surg, pediatrics, and labor-and-delivery rotations, seeking an acute-care nurse-residency seat where structured preceptorship builds bedside confidence.

## Experience

---

### Senior Practicum Student Nurse (Capstone), University Teaching Hospital

Spring 2026

City, ST

- Completed a 180-hour capstone preceptorship on a 30-bed medical-surgical unit, progressing to a four-patient assignment under direct RN supervision.
- Charted full assessments, intake-output, and medication passes in the unit's Epic instance, with every entry co-signed and verified by the preceptor.
- Performed supervised IV insertions, Foley placements, and sterile dressing changes, logging each competency in the school skills passport.
- Built a teaching handout on safe opioid discharge that the unit educator adopted for routine post-operative instruction.
- Presented an evidence-based capstone on early ambulation to reduce post-op complications to a panel of faculty and staff nurses.
- Shadowed bedside-shift report and rapid-response calls, then debriefed each event with the preceptor to connect theory to practice.

### Patient Care Technician (while in school), County General Hospital

2024 – 2025

City, ST

- Supported a six-patient assignment with vitals, blood-glucose checks, and assisted ambulation while finishing prerequisite nursing coursework.
- Answered call lights within a posted two-minute target and escalated abnormal vitals to the charge nurse promptly.
- Stocked and turned over rooms between admissions, keeping the 24-bed unit ready during a high-census winter surge.
- Earned a department service recognition for reliability across forty consecutive scheduled shifts with zero call-outs.
- Repositioned and provided ADL care for bed-bound patients on a two-hour schedule, helping the unit avoid new pressure injuries.
- Transported specimens and escorted patients between units, learning the hospital workflow ahead of starting nursing-school clinicals.

## Education

---

**Bachelor of Science in Nursing (BSN), Clinical rotations: med-surg, pediatrics, labor & delivery, behavioral health, community health.**

State University — City, ST

## Certifications & Licenses

---

BLS · NCLEX-RN (Pass / Eligible)

## Skills

---

Head-to-toe assessment · Epic documentation (supervised) · Basic IV and Foley insertion · Vital-sign monitoring · Medication math · Therapeutic communication · Evidence-based practice · Infection-control basics · Patient safety and fall prevention · Care-plan writing · Eagerness for preceptorship · Time management
