

# Plumber

(555) 010-0000 · you@example.com · City, ST · linkedin.com/in/your-name

## Summary

---

Journeyman plumber with seven years across residential service and remodel work, experienced in copper, PEX, and PVC, water-heater swaps, and drain cleaning, with a sub-3% callback rate and a current backflow-prevention certification.

## Experience

---

### Journeyman Plumber, Allied Plumbing & Drain

2020 – Present

City, ST

- Completed roughly 12 residential service calls per day, from fixture leaks to sewer backups, holding a callback rate under 3%.
- Installed and connected 90-plus tank and tankless water heaters, sizing gas lines and venting to manufacturer and UPC requirements.
- Re-piped 25 homes from galvanized to PEX and copper, pressure-testing every system before closing the walls.
- Cleared mainline and branch drain blockages with cable and hydro-jet equipment, restoring flow on 95% of jobs in a single visit.
- Set and trimmed fixtures, faucets, and toilets on remodel jobs, sweating copper and crimping PEX with leak-free first tests.
- Diagnosed and repaired backflow assemblies, passing annual certification tests on 30 commercial devices.
- Pulled permits and walked rough and final inspections with a 97% first-time pass rate.

### Plumbing Apprentice, Valley Mechanical Services

2017 – 2020

City, ST

- Logged over 6,000 supervised field hours toward journeyman licensure across new construction and service.
- Roughed in DWV and supply lines for 40 bathrooms, setting proper slope on drain runs per code.
- Soldered copper joints and solvent-welded PVC, building leak-free assemblies verified under pressure test.
- Assisted on gas-line installs, leak-testing connections with a manometer before appliance hookup.
- Stocked and organized the service truck so the lead plumber rarely returned to the supply house mid-job.
- Read isometric and plumbing plans to lay out pipe routing before trenching and rough-in.

## Education

---

### Plumbing Apprenticeship Program (5-Year), Completed required field hours plus classroom instruction in plumbing code, hydraulics, and gas systems.

2016 – 2021  
State Trades College — City, ST
