

Radiologic Technologist

(555) 010-0000 · you@example.com · City, ST · linkedin.com/in/your-name

SUMMARY

ARRT-registered radiologic technologist with six years in hospital and outpatient imaging, competent across general radiography, portable exams, and CT, completing 40-plus studies a day at a low repeat rate while holding patient dose to ALARA principles.

EXPERIENCE

Radiologic Technologist, Regional Medical Center Imaging

2021 – Present

City, ST

- Perform 40 to 55 diagnostic radiography exams per shift across the ED, surgical suite, and inpatient floors, including trauma and portable studies.
- Hold a repeat rate under 4 percent through accurate positioning and technique selection, reducing patient redose and exam delays.
- Apply ALARA principles and shielding on every exam, collimating tightly and documenting dose to department radiation-safety standards.
- Assist fluoroscopy and operating-room C-arm cases, maintaining sterile-field awareness and live positioning for the surgical team.
- Process and verify images in PACS and reconcile exam orders in the RIS so radiologists read complete, correctly labeled studies.
- Cross-trained to CT, performing routine head, chest, and abdominal protocols under the lead technologist during high-volume coverage.

Radiographer, Citywide Outpatient Imaging Center

2019 – 2021

City, ST

- Completed scheduled outpatient radiography for orthopedic, chest, and abdominal studies at a steady 35-exam daily pace.
- Screened patients for pregnancy and contraindications and explained each exam to reduce anxiety and motion artifact.
- Maintained equipment QC logs and ran daily calibration checks that kept two imaging rooms in compliance.
- Coordinated with referring offices to clear order and authorization issues before the patient arrived.
- Positioned patients with mobility limitations using sponges and supports to capture diagnostic images on the first attempt.
- Burned studies to disc and pushed prior comparisons to PACS so radiologists had complete history at read time.

EDUCATION

Associate of Applied Science, Radiologic Technology

2017 – 2019

Community Technical College — City, ST

CERTIFICATIONS & LICENSES

ARRT (R) · State Radiologic Technologist License · BLS

SKILLS

General radiography · Radiographic positioning · Portable and trauma imaging · Fluoroscopy and C-arm · CT imaging · Radiation safety (ALARA) · PACS and RIS · Technique and exposure selection · Patient screening · Equipment QC · Patient communication · Repeat-rate control
